

The Grand Prix 5000

MAKING THE BEST TIRE
BETTER

THE TASK...

...to develop an appropriate successor for the Grand Prix 4000 S II, **still leading in the performance tests.**

The goal was to improve and upgrade in rolling resistance, mileage, speed, as well as puncture protection.

The focus in our work: you. **It's your time that you spend on the bike.**

Be it in training, or in competition. Be it rain or shine, chilly or warm. Be it to set your new personal record, or just for fun.

IT'S YOUR TIME

GRAND PRIX 5000 TUBELESS

If your aim is a **tubeless approach**, we've got you covered as well. The specific sidewall of the Grand Prix 5000 TL provides a **stable fitting** on the rim.

We recommend the use of Conti Sealant.

IT'S YOUR TIME

The new era in cycling – the best allrounder in the field, brought to a whole new performance level.

Ride faster, more comfortable and with increased puncture protection. Made to make you better.

Developing the Grand Prix 5000 nothing has been left by chance.

NEW TECHNOLOGIES

LAZER GRIP

Lazer grip technology to make you one with the road. The lazered micro profile structure expands over the tire's shoulder and provides outstanding cornering.

ACTIVE COMFORT

TECHNOLOGY

The revolutionary approach in cycling. Embedded in the tire construction the Active Comfort Technology absorbs vibrations and smoothens your ride.

BLACK CHILI

COMPOUND

The legendary compound on a whole new level. Made for excellent grip, higher mileage and efficient rolling.

Vectran™
BREAKER

The synthetically produced high tech fibre, extremely tear-resistant for minimal weight. The reference in puncture protection, stronger and more protective than ever.

SUMMARY NEW TECHNOLOGIES

The TL technology is specifically designed to offer Tubeless for road cycling demands. Easy to install and reliable in use.

The user-optimized Tubeless system.

Lazer grip technology to make you one with the road. The lazered micro profile structure expands over the tyre's shoulder and provides outstanding cornering.

The revolutionary approach in cycling. Embedded in the tyre construction the Active Comfort Technology absorbs vibrations and smoothens your ride.

The legendary compound on a whole new level. Made for excellent grip, higher mileage and efficient rolling.

The synthetically produced high tech fibre, extremely tear-resistant for minimal weight. The reference in puncture protection, stronger and more protective than ever.

IT'S YOUR TIME

“As a confident fan of the Tubeless technology I’ve been looking for the perfect technology for a long time. Tubeless offers lower rolling resistance, better puncture protection and road handling. But until Conti brought Tubeless road to the market no company had it all together! Speed, control, protection.”
